

PERFORMANCE REVIEW

1. DISCLAIMER

This document is provided for **informational purposes only** and does not constitute investment advice or a recommendation to buy or sell securities. Past performance is not indicative of future results. The value of investments and the income derived from them can fall as well as rise, and investors may not get back the original amount invested. *

2. FUND DETAILS

The following details identify the core characteristics of the investment. These parameters, including the base currency and inception date, establish the framework within which the fund operates and its performance is measured.

- Fund Name: iShares Core U.S. Aggregate Bond ETF
- Fund Code: AGG
- Currency: USD
- Launch Date: 22/09/2003

3. PERFORMANCE METRICS

To evaluate the fund's risk-adjusted returns, we utilize several key statistical metrics. These figures help investors understand both the growth potential and the inherent risks. **

- One-year return: **-2,22%**

This figure represents the cumulative percentage change in the Net Asset Value (NAV) over the last 12 months.

- Volatility: **4,45%**

The volatility measures the dispersion of returns for a given security or market index. High volatility indicates that the fund's price can swing significantly in either direction over a short period.

- Max Drawdown: **-3,72%**

This metric identifies the largest single drop from a peak to a trough in the fund's value before a new peak is achieved. It serves as a critical indicator of downside risk and capital preservation during market stress.

4. BENCHMARK COMPARISON

Comparing the fund to its benchmark is essential to determine the value added by the portfolio manager. The benchmark represents the performance of the relevant market index that the fund aims to track or outperform. ***

- Benchmark: S&P 500 Index

5. NET ASSET VALUE (NAV) CHART

The chart below illustrates the historical evolution of the fund's Net Asset Value (NAV). This visual representation allows for an immediate assessment of price trends, periods of growth, and historical market volatility.
